Policy Coordinator

Polaris Programme: Support to multi-level governance in Ukraine

About SALAR International & its engagement in Ukraine

SALAR International is a subsidiary of the Swedish Association of Local Authorities and Regions (SALAR), representing all 290 municipalities and 21 regions in Sweden. As the international branch of SALAR, we work globally to support local democracy and good governance in developing and transitioning countries. Our expertise covers areas such as capacity building in municipal management and service delivery, local and regional development planning, support for local government associations, decentralisation policies and European integration. Geographically, SALAR International's projects cover countries in Eastern Europe, the Caucasus, the Middle East and the Sub-Saharan Africa.

SALAR International has been engaged in Ukraine since 2014, providing support to Ukraine's decentralisation process through three major initiatives focusing on building a robust multi-level governance system, increasing accessibility and quality of services at the local level, and enhancing international cooperation between municipalities from Ukraine and the EU. After the full-scale invasion, SALAR International has added crisis support to Ukrainian municipalities, providing them with material assistance.

Description of the assignment context

SALAR International has supported Ukraine's Decentralisation Reform since 2014 through the projects PROSTO and Decentralisation Support Project (DSP), funded by Sweden, and also as implementing partner within the U-LEAD with Europe Programme, funded by the EU. To address the changing needs of Ukrainian municipalities and national level stakeholders during wartime, the Swedish International Development Cooperation Agency (Sida) has initiated a broader programme in support of multilevel governance and recovery. This programme is called "Polaris: Supporting Multi-level Governance in Ukraine". It is implemented by SALAR International and planned for four years (July 2024-May 2028).

Polaris Programme aims to work with both short and long-term focus, addressing the needs of the multi-level governance system in Ukraine and in parallel strengthening municipalities' public service provision, as well as their direct engagement in the recovery and reconstruction processes, in line with the requirements of Ukraine's EU accession.

The Programme's support is provided through two operational components: one focusing on policy and collaboration with national stakeholders, and the other providing direct support to municipalities. The support encompasses five thematic areas: Education, Fiscal Decentralisation and Budgeting, Administrative Service Provision, Locally-led Recovery, and International Municipal Cooperation. In addition, the Programme will provide material support to meet short-term material crisis needs of municipalities. For more long-term material support and funding of implementation of recovery plans, the Programme will coordinate with other international actors and funding institutions.

Organisational set up

The programme is a joint Swedish-Ukrainian initiative with management structures in both Stockholm and Kyiv. It encourages a flat organisational structure, meaning a high degree of autonomy and responsibility for involved experts, as well as strong local ownership among beneficiaries such as national stakeholders and Ukrainian municipalities.

It is expected that more than 50 people will be working full-time in Ukraine within various thematic teams as well as support units.

The Programme has its office in Kyiv but the support and activities target local self-government in all regions of Ukraine and will be implemented in all regions controlled by the Ukrainian government. The support is provided on demand, in most cases through open calls.

Role description

The policy coordinator will be part of the programme management team. The role is mainly to coordinate the Programme's activities related to advocacy and policy, and to support the team with guidance on strategic decisions and prioritisation of policy matters.
